Our Mission

To provide high quality home health care services to individuals and their families in the comfort of their home and also to provide health care facilities such as Certified Home Health Agencies, Hospice Programs, Hospitals, Nursing Homes and Assisted Living Facilities with personal staffing services. Our services and programs are designed to provide compassionate care to enhance the lives of individuals and the communities we serve. Our program stresses personalized care, tailored to the patient's individual needs. We work closely with the physicians, the patient and family members in planning, reviewing progress and making adjustments to the plan of care.

Providing Quality Home Care to families since 2009

Our Caregivers are the “Cream of the Crop.” At Eveready Homecare, our caregivers are:

- Completely committed and highly qualified.
- Carefully selected individuals who are insured, bonded, and thoroughly screened including criminal background checks.
- Completely Dependable, trustworthy, and show extraordinary care for others.

Eveready Homecare realizes that there are few greater joys than to see children smile, hear them laugh, or watch them play. That is why we have dedicated ourselves to caring for children with special needs and providing support for their families.

Through **Eveready Homecare Pediatric Services**, a division of **Eveready Homecare Services**, dedicated solely to the needs of young patients and their families, we not only preserve quality of life, we preserve childhood. We know that no two children are the same. That’s why our pediatric services are designed on a case-by-case basis, specific to the needs of the child. We believe that offering uncompromising care to children is not only important, but it’s essential.
